1. Description of the REIT and operations

Slate Retail REIT (the "REIT") is an unincorporated, open-ended mutual fund trust under and governed by the laws of the Province of Ontario. The REIT focuses on acquiring, owning and leasing a portfolio of diversified revenue-producing commercial real estate properties (the "properties") in the United States of America (the "U.S.") with a focus on grocery-anchored retail properties.

The class U units of the REIT trade on the Toronto Stock Exchange ("TSX") under the symbols SRT.U and SRT.UN. The principal, registered, and head office of the REIT is 121 King Street West, Suite 200, Toronto, Ontario, M5H 3T9.

The objectives of the REIT are to:

i. provide unitholders with stable cash distributions from a portfolio of diversified revenue-producing commercial real estate properties in the U.S. with a focus on grocery-anchored retail properties;

ii. enhance the value of the REIT's assets in order to maximize long-term unitholder value through active management; and

iii. expand the asset base of the REIT and increase the REIT's earnings on a per unit basis, including through accretive acquisitions.

2. Basis of preparation

i. Statement of compliance

These condensed consolidated interim financial statements (the "consolidated financial statements") have been prepared in accordance with International Accounting Standard ("IAS") 34, *Interim Financial Reporting* as issued by the International Accounting Standards Board.

ii. Approval of the consolidated financial statements

The consolidated financial statements were approved by the trustees of the REIT and authorized for issuance on April 30, 2019.

iii. Basis of measurement

These consolidated financial statements have been prepared on a going concern basis and measured at historical cost except for properties and certain financial instruments, which are measured at fair value.

The application of the going concern basis of presentation assumes that the REIT will continue in operation for the foreseeable future and be able to realize its assets and discharge its liabilities and commitments in the normal course of business. The REIT expects to continue as a going concern for the foreseeable future.

iv. Functional and presentation currency

These consolidated financial statements are presented in U.S. dollars, which is the REIT's functional currency and the functional currency of all of its subsidiaries.

3. Significant accounting policies

A summary of significant accounting policies is included in note 3 *Significant accounting policies* of the audited comparative consolidated financial statements of the REIT as at and for the year ended December 31, 2018. These consolidated financial statements follow the same accounting policies and methods of computation as used in the REIT's most recent annual consolidated financial statements, except for the adoption of the new accounting policy disclosed below. Also included below is an accounting policy not described in the REIT's annual consolidated financial statements, but which is applicable to a transaction occurring for the first time in 2019.

These consolidated financial statements do not include all the information and disclosures required in the annual financial statements prepared under International Financial Reporting Standards ("IFRS") and should be read in conjunction with the REIT's audited comparative consolidated financial statements as at and for the year ended December 31, 2018.

i. Application of new and revised IFRS

IFRS 16, Leases ("IFRS 16")

IFRS 16 replaces IAS 17, Leases ("IAS 17") and IFRIC 4, Determining whether an arrangement contains a lease, and is effective January 1, 2019. IFRS 16 substantially carries forward the lessor accounting requirements of IAS 17 while requiring enhanced disclosures to be provided by lessors. Other areas of the lease accounting model have been impacted, including the definition of a lease.

The REIT has adopted IFRS 16 initially on January 1, 2019, using a modified retrospective approach. Therefore, the cumulative effect of adopting IFRS 16 is recognized as an adjustment to the opening balance of retained earnings at January 1, 2019, with no restatement of comparative information.

(unaudited - in thousands of United States dollars, unless otherwise stated)

As a result of the adoption of IFRS 16, the REIT has separately disclosed variable lease payments not connected to an index or rate including property tax recoveries and percentage rents. As a landlord, all of the REIT's leases are considered operating leases under IFRS 16. There was no impact on the statement of financial position, consolidated statement of income or the statement of cash flows as a result of adoption.

ii. Supplementary accounting policy disclosure

In 2019, the REIT applied an accounting policy for a transaction that did not occur in periods prior to 2019. The REIT's significant accounting policy related thereto is described below:

Investments in associates and joint ventures

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. The REIT's investment in a joint venture is recorded using the equity method and is initially recognized in the statement of financial position at cost and adjusted thereafter to recognize the REIT's share of the profit or loss and other comprehensive income of the joint venture. The REIT's share of the joint venture's profit or loss is recognized in the REIT's statement of income and consolidated statement of comprehensive (loss) income.

The financial statements of the equity accounted investment are prepared for the same reporting period as the REIT. Where necessary, adjustments are made to bring the accounting policies in line with those of the REIT. A joint venture is considered to be impaired if there is objective evidence of impairment, as a result of one or more events that occurred after initial recognition of the joint venture, and that event has a negative impact on the future cash flows of the joint venture that can be reliably estimated.

4. Acquisition and dispositions

During the three month period ended March 31, 2019, the REIT acquired a 50% interest in a joint-venture partnership with The Kroger Company. Refer to note 7 *Equity investment* for further details.

		March 31, 2019		December 31, 2018
Capitalization rate range		**6.00% – 11.40%**		6.25% – 11.40%
Weighted average capitalization rate		**7.49%**		7.50%

Impact on fair value due to $100,000 change in underlying annual stabilized income	**$**	**1,333**	$	1,332

Under the fair value hierarchy, the fair value of the REIT’s properties is determined using the overall income capitalization method using Level 3 inputs.

6. Interest rate swaps

The REIT has entered into certain pay-fixed receive-float interest rate swap contracts to hedge the cash flow risk associated with monthly U.S. London Interbank Offering Rate ("LIBOR") based interest payments on the REIT's floating rate debt.

The terms of the interest rate swaps are as follows:

Effective date	November 2, 2016	September 1, 2017	August 22, 2018	August 22, 2018	**Total/ Weighted average**
Pay-fixed rate	1.1040%	1.7150%	2.8840%	2.9250%	**2.0257%**

7. Equity investment

On January 25, 2019, the REIT acquired a 50% partnership interest in Windmill Plaza, a grocery-anchored shopping centre located in Sterling Heights, Michigan, in a joint-venture partnership with The Kroger Company for $7.3 million, before transaction costs. Consideration for the partnership interest included settlement of the REIT's note receivable in the amount of $9.4 million and interest receivable of $2.2 million, assumed debt and cash on hand.

TIF notes receivable are issued by the City of St. Paul and by the City of Brainerd in Minnesota, related to the REIT's Phalen Retail Centre and East Brainerd Mall properties, respectively. The TIF notes obligate each municipality to pay certain tax increments resulting from increases, if any, from a reference amount in the taxable valuation of the respective property to the REIT.

On January 25, 2019, the note receivable and interest accrued on the note receivable were settled as part of the consideration for the acquisition of Windmill Plaza in a 50% joint-venture partnership with The Kroger Company.

9. Accounts receivable

Accounts receivable is comprised of the following:

	March 31, 2019	December 31, 2018
Rent receivable	**$ 7,584**	$ 3,748
Allowance for doubtful accounts	**(637)**	(741)
Accrued recovery income	**3,537**	6,101
Other receivables	**1,488**	2,877

The change in allowance for doubtful accounts is as follows:

	Three months ended March 31,	
	2019	2018
Beginning of the period	**$ (741)**	$ (328)

The REIT measures the allowance at an amount equal to lifetime expected losses by taking into account past default experience and considering both current and potential bankruptcy, abandonment by tenants and certain tenant disputes.

(unaudited - in thousands of United States dollars, unless otherwise stated)

The aging analysis of not credit-impaired rent receivable, net of allowance for doubtful accounts, is as follows:

(1) "L" means LIBOR and "bps" means basis points.
(2) Debt available to be drawn is subject to certain covenants as provided in the REIT's lending agreements, including generally, a maximum of 65% Consolidated Total Indebtedness to Gross Asset Value. The calculation of Consolidated Total Indebtedness to Gross Asset Value is provided in note 20 *Capital Management*. The revolver, term loan and term loan 2 provide for different spreads over one-month U.S. LIBOR depending on the ratio of Consolidated Total Indebtedness to Gross Asset Value. The applicable spread where Consolidated Total Indebtedness to Gross Asset Value is; (i) less than or equal to 45% is 155 bps; (ii) greater than 45% but less than or equal to 55% is 175 bps; (iii) greater than 55% but less than or equal to 60% is 200 bps; and (iv) greater than 60% is 225 bps.
(3) The revolver requires a stand-by fee to be paid in an amount equal to 0.25% of the unused portion of the revolver where the unused portion is greater than or equal to 50% of the maximum amount available and 0.15% of the unused portion of the revolver where the unused portion is less than 50% of the maximum amount available, calculated daily.
(4) The revolver, term loan and term loan 2 are secured by a general pledge of equity of certain subsidiaries of the REIT. Collectively, those subsidiaries hold an interest in 73 of the REIT's properties.

The carrying value of debt held by the REIT at March 31, 2019 is as follows:

	Effective rate [1]	**Principal**	**Mark-to-market ("MTM") adjustments and costs**	**Accumulated amortization of MTM adjustments and costs** [2]	**Carrying amount**	**Current**	**Non-current**

(1) The effective interest rate for the revolver, term loan and term loan 2 includes the impact of unamortized financing costs not yet recorded in interest expense under the effective interest method. The revolver, term loan and term loan 2 effective rates are based on the applicable U.S. LIBOR rate under borrowings as at March 31, 2019.
(2) Excludes the impact of any available extension options not yet exercised.

During the period ended March 31, 2019, the REIT made principal repayments totaling $39.3 million on the REIT's revolver and mortgages funded by cash received from the disposal of two properties and two property outparcels, as well as cash on hand.

11. REIT units and exchangeable units of subsidiaries

At March 31, 2019, the REIT has the following REIT units issued and outstanding, in thousands of units:

	Class A	Class I	Class U
Authorized for issue	Unlimited	Unlimited	Unlimited
Issued and outstanding	258	282	41,221

At December 31, 2018 each class of the exchangeable units issued by the REIT's subsidiaries are presented as financial liabilities in accordance with IAS 32, *Financial Instruments: Presentation*.

Each REIT unit confers the right to one vote at any meetings of REIT unitholders. The REIT is also authorized to issue an unlimited number of special voting units. Special voting units are only issued in tandem with the issuance of securities redeemable for or exchangeable into REIT units. The special voting units do not have any economic entitlement in the REIT with respect to distributions but provide the holder with the same voting rights in the REIT as a holder of REIT units. The GAR B exchangeable units are accompanied by an equivalent number of special voting units.

Each REIT unit entitles the holder to the same rights and obligations as any other REIT unitholder and no REIT unitholder is entitled to any privilege, priority or preference in relation to any other holder of REIT units of class A units, class I units and class U units of the REIT to participate in distributions made by the REIT including distributions of net income, net realized capital gains or other amounts and, in the event of termination or winding-up of the REIT, in the net assets of the REIT remaining after satisfaction of all liabilities. REIT units will be fully paid and non-assessable when issued and are transferable.

The REIT's Declaration of Trust grants holders of class A units and class I units of the REIT the right to convert all or any portion of their class A units and class I units of the REIT, at any time (the “conversion date”), into class U units by giving written notice to the REIT. On the applicable conversion date, the REIT will deliver to the class A unitholder or class I unitholder the applicable number of class U units for each class A unit or class I unit converted by such unitholder.

With certain restrictions, the unitholders have the right to require the REIT to redeem their units on demand. Upon receipt of the redemption notice by the REIT, all rights to and under the units tendered for redemption shall be surrendered and the holder thereof shall be entitled to receive a price per unit as determined by a market formula and shall be paid in accordance with the conditions provided for in the Declaration of Trust.

Effective March 15, 2018 the REIT elected to suspend its distribution reinvestment plan ("DRIP"), which allowed holders of REIT units to elect to receive their distributions in the form of class U units.

Exchangeable units of subsidiaries

Exchangeable units of subsidiaries are redeemable at the option of the holder, for cash or class U units of the REIT as determined by the REIT. Distributions paid on exchangeable units of subsidiaries are recorded as unit expense in the period in which they become payable.

Exchangeable units of subsidiaries are re-measured based on the quoted closing price of REIT units into which they are exchangeable with changes in fair value recognized in net income as unit expense.

Subdivision

In the 2018 year, the REIT completed various steps to have its units presented as equity in its consolidated financial statements. The changes included the approval of a special resolution of an amendment to and restatement of the Declaration of Trust of the REIT (the “Third A&R DOT”) making the features of the class A units, class I units and class U units identical among all three classes, among other things. Also on May 1, 2018, the board of trustees of the REIT approved the subdivision of each of the: (i) class A units issued and outstanding on May 3, 2018 (the “record date”) on the basis of a subdivision ratio of one pre-subdivision class A unit for 1.0078 post-subdivision class A units; and (ii) class I units issued and outstanding on the record date on the basis of a subdivision ratio of one pre-subdivision class I unit for 1.0554 class I units (the "Subdivision"). The Third A&R DOT and the Subdivision were undertaken contemporaneously and the impact of such actions did not change the relative economics of the different classes of units of the REIT.

The Subdivision was completed on May 11, 2018. As a consequence of the Subdivision, the proportionate entitlement of the class A units and class I units with respect to distributions from the REIT has been adjusted to 1.0 and all class A units, class I units and class U units have equal rights with respect to distributions from the REIT, redemptions of units and on the termination of the REIT. Each class A unit and each class I unit have remained convertible into a class U unit but the conversation ratio is on a one-for-one-basis. The REIT issued an additional 3 thousand class A units and 15 thousand class I units as a result of the Subdivision. The fair value of the REIT units of $435.3 million at May 11, 2018 were classified as equity. Prior to May 11, 2018, units of the REIT were presented as a liability in its consolidated financial statements.

Normal course issuer bid

The REIT has a normal course issuer bid ("NCIB") which was most recently renewed on May 26, 2018. The NCIB remains in effect until the earlier of May 25, 2019 or the date on which the REIT has purchased an aggregate of 3.9 million class U units, representing 10% of the REIT's public float of 38.7 million class U units at the time of entering the NCIB through the facilities of the TSX.

For the three month period ended March 31, 2019, no class U units have been purchased and subsequently canceled under the NCIB.

Substantial issuer bid

On January 16, 2019, the REIT commenced a substantial issuer bid (the "offer"), pursuant to which the REIT offered to purchase up to 4.2 million class U units at a purchase price of C$12.54 (USD$9.51). On February 20, 2019, the offer expired and the REIT had taken up and paid for 0.3 million class U units for an aggregate cost of $3.2 million or C$4.2 million, excluding fees and expenses related to the offer. The class U units purchased for cancellation under the offer represents 0.8% of the diluted class U units outstanding, immediately prior to the expiry of the offer.

Deferred unit plans

The REIT has a deferred unit incentive plan ("DUP") for trustees of the REIT, who are not also members of management may elect to receive all or a portion of their trustee fees in the form of deferred units that vest immediately upon grant.

The REIT also has a DUP for officers of the REIT whereby officers may elect to receive deferred class U units, which represent a right to receive class U units, in lieu of an equivalent amount of asset management fees for management services rendered by Slate Asset Management L.P. (the "Manager").

The deferred units are equivalent in value to REIT units and accumulate additional deferred units at the same rate that distributions are paid on REIT units in relation to the market value of REIT units.

12. Income taxes

The REIT qualifies as a mutual fund trust for Canadian income tax purposes. The REIT intends to distribute all of its taxable income to unitholders and is entitled to deduct such distributions for Canadian income tax purposes. Accordingly, no provision for current income taxes payable is required, except for amounts incurred in Investment L.P.

Investment L.P. and GAR B made an election to be classified as corporations for U.S. federal tax purposes. Investment L.P. and GAR B are subject to U.S. federal and state income taxation on their allocable shares in Slate Retail One L.P., a subsidiary of the REIT, and any subsidiary limited partnership thereof.

The REIT is therefore subject to U.S. federal income taxation on its allocable share of rental income derived directly or indirectly through such subsidiary limited partnerships, on a net basis taking into account allowable deductions. Investment L.P. is subject to a combined federal and state income tax rate of 26.21% (December 31, 2018 – 26.22%). To the extent U.S. taxes are paid by Investment L.P. such amounts will be creditable against an investor's Canadian federal income tax liability to the extent permitted by Canadian tax law.

The REIT enters into long-term lease contracts with tenants for space in the REIT's properties. Leases generally provide for the tenant to pay base rent, with provisions for contractual increases in base rent over the term of the lease, plus operating costs and realty tax recoveries. Certain leases have limitations or escalation restrictions on the amount of recoveries or cost reimbursements, which the tenant is obligated to pay regardless of the actual costs incurred by the REIT to operate and maintain the properties.

The REIT's existing leases have a weighted average outstanding term of 5.0 years (December 31, 2018 – 4.8 years) certain of which include clauses to enable periodic upward revisions in rental rates.

20. Capital management

The REIT's capital management objectives are to:

i. ensure compliance with the REIT's Declaration of Trust;

ii. ensure compliance with restrictions in debt agreements; and

iii. provide sufficient liquidity to operate the REIT's properties, fund obligations as they become due and build unitholder value.

Procedures to monitor compliance with the Declaration of Trust and debt agreements are performed as a part of the overall management of operations and periodically by review of the REIT's board of trustees and reporting to the REIT's lender. In order to maintain or adjust the capital structure, the REIT may issue trust units, debentures or mortgage debt, adjust the amount of distributions paid to unitholders, return capital to unitholders, or reduce or increase debt.

The REIT considers its debt and equity instruments to be its capital as follows:

		March 31, 2019		December 31, 2018
Debt	**$**	**849,498**	$	871,562

Total	**$**	**1,292,190**	$	1,328,410

The Declaration of Trust provides that the REIT is not permitted to exceed financial leverage in excess of 65% of gross book value, as defined by the Declaration of Trust, and is calculated as follows:

		March 31, 2019		December 31, 2018
Gross book value	**$**	**1,388,403**	$	1,416,334
Debt		**849,498**		871,562
Leverage ratio		**61.2%**		61.5%

(unaudited - in thousands of United States dollars, unless otherwise stated)

Additional investment and operating guidelines are provided for by the Declaration of Trust. The REIT is in compliance with these guidelines.

The REIT's revolver, term loan and term loan 2 are subject to financial and other covenants. The following are the primary financial covenants, with all terms defined by the respective lending agreement:

	Threshold	**March 31, 2019**	December 31, 2018
Maximum leverage ratio: Consolidated Total Indebtedness shall not exceed 65% of Gross Asset Value	< 65%	**59.1%**	59.6%
Minimum fixed charge coverage ratio: adjusted EBITDA to consolidated fixed charges shall not be less than 1.50x (1)	> 1.50x	**2.37x**	2.40x

(1) Adjusted EBITDA is defined as earnings before interest, tax, depreciation and amortization, as defined by the Amended and Restated Credit Agreement for the revolver and term loan, and the Credit Agreement for term loan 2.

21. Risk management

The REIT's risk management policies are established to identify, analyze and manage the risks faced by the REIT and to implement appropriate procedures to monitor risks and adherence to established controls. Risk management policies and systems are reviewed periodically in response to the REIT's activities and to ensure applicability.

In the normal course of business, the main risks arising from the REIT's use of financial instruments include credit risk, liquidity risk and market risk. These risks, and the actions taken to manage them, include:

i. Credit risk

Credit risk is the risk of financial loss to the REIT associated with the failure of a tenant or other party to meet its contractual obligations related to lease agreements, including future lease payments and loan arrangements and TIF receivables. The risk is mitigated by carrying out appropriate credit checks and related due diligence on the significant tenants.

For the years ended March 31, 2019, one individual tenant accounted for 7.8% (December 31, 2018 – 7.7%) of the REIT's base rent.

ii. Liquidity risk

Liquidity risk is the risk that the REIT will not be able to meet its financial obligations as they fall due. The REIT's approach to managing liquidity is to ensure sufficient financial resources are available to meet its liabilities as they become due. This includes monitoring of cash, current receivables, current payables, and non-current liabilities as they become current.

Real property investments tend to be relatively illiquid, with the degree of liquidity generally fluctuating in relation to the demand for and the perceived desirability of such investments. Such illiquidity can limit the REIT's ability to vary its portfolio promptly in response to changing economic or investment conditions. If the REIT were required to liquidate a real property investment promptly, the proceeds to the REIT might be significantly less than the aggregate carrying value of such property.

[(1)] Revolver and term loan interest payable is calculated on $135.1 million and $362.5 million (balance outstanding) using an estimated "all in" interest rate of 4.48% under the "less than one year" column. The long-term average interest rate is based on the 30-day LIBOR forward curve plus the specified margin for the LIBOR rate option under the revolver and term loan resulting in an anticipated increase to the "all-in" interest rate to 4.15%. The total revolver and term loan interest payable is calculated until maturity of the initial term.

[(2)] Includes stand-by fee on the revolver to be paid in an amount equal to 0.25% of the unused portion of the revolver where the unused portion is greater than or equal to 50% of the maximum amount available and 0.15% of the unused portion of the revolver where the unused portion is less than 50% of the maximum amount available, calculated daily.

[(3)] Term loan 2 interest payable is calculated on $250.0 million (balance outstanding) using an estimated "all in" Interest rate of 4.48% under the "less than one year" column. The long-term average interest rate is based on the 30-day LIBOR curve plus the specified margin for the LIBOR rate option under the term loan 2 and results in an anticipated increase to the "all-in" interest rate to 4.18%. The total term loan 2 interest payable is calculated until maturity.

[(4)] Includes the REIT's share of its equity investment.

iii. Interest rate risk

Interest rate risk arises from the possibility that the value of, or cash flows related to, a financial instrument will vary as a result of changes in market interest rates. The REIT manages its financial instruments with the objective of mitigating any potential interest rate risks. For the revolver, term loan and term loan 2 interest rate on the loans will vary depending on changes in base rate and/or U.S. LIBOR rate. The REIT is subject to interest rate risks mainly from non-current debt that has variable interest rate. The REIT manages these cash flow interest rate risks using pay-fixed received-float interest rate swap contracts to swap the floating-rate payments on the credit facility for fixed rate payments.

Assuming all fixed-rate debt remain outstanding, each 25-basis point change in interest rates would result in a $6 thousand change in annual interest expense.

Cash flow sensitivity analysis

The interest rate profile of variable rate interest bearing debt and associated interest rate sensitivity to changes in interest rates is as follows:

	March 31, 2019	December 31, 2018
Variable-rate instruments		
Revolver	**$ 135,099**	$ 144,543
Term loan	**362,500**	362,500
Term loan 2	**250,000**	250,000
Effect of interest rate swaps	**(750,000)**	(750,000)
Total effective floating rate debt	**$ (2,401)**	$ 7,043
Effective fixed rate debt as a total of all debt	**100.3%**	99.2%
Annual impact of a 25 bps change on interest rates	**$ (6)**	$ 18

iv. Unit price risk

The REIT is exposed to unit price risk in net income as a result of its exchangeable units of subsidiaries. Exchangeable units of subsidiaries have been classified as liabilities and measured at fair value based on market trading prices. Exchangeable units of subsidiaries negatively impact net income when the unit price rises and positively impact net income when unit prices decline. An increase of $1.00 in the underlying price of exchangeable units of subsidiaries results in an increase to liabilities and a decrease (increase) in net income of $2.2 million.

v. Currency risk

Currency risk is associated with a fluctuation in the value of the U.S. dollar relative to other foreign currencies. Although not material, the REIT is exposed to currency risk as certain of the REIT's expenses are denominated in Canadian dollars.

22. Related parties

Pursuant to the terms of a management agreement dated April 15, 2014, the Manager provides all management services to the REIT. The Manager agreed to provide certain services in connection with the business of the REIT, including: the structuring of the REIT, liaising with legal and tax counsel; identifying properties for acquisition; maintaining ongoing relationships with the lenders in respect of the mortgage loans for the properties; conducting continuous analysis of market conditions; and advising with respect to the disposition of the properties. In return for its service, the Manager receives the following fees:

i an asset management fee equal to 0.4% of the total assets of the REIT;

ii an acquisition fee in an amount equal to 0.75% of the gross purchase price of each property (or interest in a property), including the price, due diligence costs, closing costs, legal fees, and additional capital costs for all properties indirectly acquired by the REIT; and

iii an annual incentive fee, calculated in arrears, in an aggregate amount equal to 15% of the REIT's funds from operation per class U unit as derived from the annual financial statements of the REIT in excess of $1.32, subject to ordinary course adjustments for certain transactions affecting the class U units and increasing annually by 50% of the increase in the U.S. consumer price index.

These transactions are in the normal course of operations and are measured at the exchange amount which is the consideration established and agreed to by the parties.

For the three month period ended March 31, 2019, asset management fees to the Manager amounted to $1.4 million (March 31, 2018 – $1.5 million).
